ENGLAND WILL QUIT SUPPORTING THE WAR

And Gen. Delaney Favors Fighting to the Bitter End.

CHILEAN GOVERNMENT EXPANDING ITS FINANCES, ARMY AND NAVY

Coffee Crop of San Salvador Reduced By the Great Drought — English Company Abandons Traffic on Lake Nicaragua.

NEW YORK, July 23.—Mr. Balfour has just stated there will be no supplementary estimates and from this it is inferred that the government does not intend to ask Parliament to make any further provision for the war, says the London correspondent of the Tribune. The military authorities, it is understood, are satisfied that the war is nearing its end and that the sum already voted by Parliament will be sufficient to meet the military expenditure.

CAPE TOWN, July 23.—It is reported that General Delaney has informed the Klerkord Commando that there is no longer any chance of European intervention and that they must fight the war out to the bitter end entirely on their own account.

VALPARAISO, Chile, July 23.—The Chilean Government is preparing a bill which will effect a re-organization to a large extent of the national finances. It contemplates the reclamation of an additional 50,000,000 pesos as a reserve and will provide for an excise duty on alcohol and other internal taxes, which, together with the sale of nitrate properties, will be devoted to greatly increasing the efficiency of the Chilean army and navy.

SAN SALVADOR, July 23.—The coming coffee crop, it is expected, will be considerably reduced on account of the recent drought.

MANAGUA, NICARAGUA, July 23.—The arbitrators to whom the matter was referred have decided that the Caribbean-Pacific Transit Company of Liverpool, has forfeited its deposit of \$4000 gold and the exclusive privileges of steam navigation of Lake Nicaragua and the San Juan River.

GOOD COAL FIELDS

Afternoon Press Association Special.
ASTORIA, Ore., July 23.—Articles of incorporation of the Nehalem Coal Company were filed in the county clerk's office today. The incorporators are of Astoria and Omaha, and the capital stock is \$150,000, divided into 1500 shares of \$100 each. The principal office of the company is to be in Astoria and it is authorized under its articles to buy and sell lands in Clatsop and Tillamook counties, engage in a general coal mining and logging business, construct and operate railways, steamers and other vessels and carry on a general merchandising business. The company owns 525 acres of coal lands on the south side of the Necanic mountain, which are

He Has Saved My Life

State of Oregon, ss. Salem, Ore., May 1, 1900.
County of Marion.
To whom these presents shall come Greeting.
This is to certify that I have been afflicted with Ovarian Tumors for a number of years, also liver trouble. I desire to publicly state upon oath that Dr. J. F. Cook, of Salem, Oregon, has removed said tumors, two in number, without the use of knife, plaster or poisonous drugs, and that I am entirely, and as I believe, permanently cured. I cheerfully recommend Dr. Cook to all persons afflicted as I was. I feel that he has saved my life. My home is three miles south of Turner, Oregon.
MRS. CAROLINE ROYCE.
Subscribed and sworn to before me this first day of May, 1901.
W. W. HALL,
County Clerk.

Do Not Listen to "Cappers"

Who are hired to defame me and my methods of treatment. If I could not cure people there would be no use to Dr. Cook. It is because I do cure people that I am persistently misrepresented, but I keep on curing folks just the same, and some of the best people in Oregon stand by me, for which I am thankful.
Send for Circulars containing testimonials from patients cured both in Oregon and in the East. Don't despair because you have been told you have been told you could not be cured. Dr. Cook has cured hundreds of people whose cases have been pronounced hopeless by the "old school" physicians.
The doctor has devoted the best years of his life to the study of disease, and the use and action of Nature's vegetable remedies, until he knows absolutely just what he can do. This gives him confidence.

Dr. J. F. Cook Botanical Physician
Cures all kinds of diseases.
Office: 303 Liberty St. Salem, Ore.

Look Out!

The new third party is in the field, but when it comes to arousing interest that's more vital to your pocketbook. Our low prices are certainly doing the trick. Our eight day clocks at from \$1.99 up are beautiful.

BOVINE MATTER

Not Transmissible to the Human System.

Prof. Koch Reports Tuberculosis a Harmless Substance.

And Infected Milk and Meats Can Be Eaten with Impunity.

NEW YORK, July 23.—Prof. Koch, of Berlin, will announce, says a Herald dispatch from London, his discovery that bovine tuberculosis is not transmissible to the human system. The famous bacteriologist in an interview authorized the statement that he had demonstrated that the meat and milk of tuberculosis-infected cattle may be consumed with absolute impunity.

Dr. Allen F. Haigh, of Chicago, the official representative of the American Medical Association, says: "If I had not heard Prof. Koch quietly announce his discovery in private conversation it would have seemed to me absolutely incredible. I can only say that Dr. Koch is too profound a student and has too much reputation at stake to promulgate such a proposition unless convinced of its soundness beyond the shadow of a doubt. If he is able to theoretically demonstrate his 'claim' the sanitary systems of the world will be shaken to the very roots. The word revolution but faintly expresses what the discovery will precipitate." English experts talked of the theory with mingled astonishment and contempt and asserted that the German professor would encounter stubborn debate and learned disproof of his "mad idea."

Dr. Reynolds, health commissioner of Chicago, when informed of Prof. Koch's theory said: "The discovery is certainly of the highest importance especially in regard to milk. As far as meat is concerned, I never believed it contained elements of danger when cooked and therefore the announcement has comparatively less significance for the civilized peoples of the world. As to milk taken in its natural state, it is a different proposition. While probably nobody is desirous of drinking the milk of tuberculous cows, yet a great boon would be assured if it can be consumed with impunity. The discovery will also have a practical result in simplifying the work of milk inspection, although not altogether rendering this unnecessary."

SINKING STEAMER

Thirty Passengers Removed Without any Losses.

CHICAGO, July 23.—A special to the Tribune from Saginaw, Mich., says: The steamer City of New Baltimore, running between here and Tawas, sank in the river, three miles from here with 30 passengers on board.

The boat was returning from an excursion to Fort Lookout when it sprang a leak and commenced to fill. Word was sent here by telephone and the tug McLean was sent out to take off the passengers.

All on board were landed here safely at an early hour this morning. When assistance was called for the vessel had met with a serious accident and that many persons had been injured. It was difficult to get the facts until the tug McLean reached the scene. There was more or less confusion on board until it was ascertained that there was ample time for every one to be taken off safely.

When the passengers reached here on the McLean they said that there was some alarm on board for a few minutes but the crew and officers soon restored order. The boat can be saved.

YELLOW FEVER

Five Cases Reported to Authorities Near Havana.

NEW YORK, July 23.—The quarantine authorities have been advised that five cases of yellow fever are reported at Santiago de las Vegas, a town of 6000 in habitants, 3 miles from Havana. All the sufferers are Spaniards.

Teachers Sail for Manila

SAN FRANCISCO, Cal., July 23.—The transport Thomas sailed for Manila today carrying nearly 600 teachers for service in the Philippines. The teachers come from nearly every state and territory of the Union, having been selected by competitive examinations. There are also some prominent educators assigned from Yale, Harvard, Cornell, the University of Michigan and other leading educational institutions, and a half dozen of the best teachers in the service of the Indian Office.

Sale of Railroads.

PATONSBURG, Mo., July 23.—All the lines of railroad owned and operated by Louis L. R. Thomas of the Pattern by the Kansas City and Northern Connecting Railroad Company are to be sold at auction here today. The sale is a foreclosure by order of the United States Circuit Court of Missouri in an action brought by the receivers of the Kansas City, Pittsburg and Gulf, Edward H. Harrigan and John W. Gates.

Elks in Milwaukee.

MILWAUKEE, Wis., July 23.—Arriving trains today brought Elks from all directions who have come to attend the great national meeting of the order which will open tomorrow. The downtown district is gayly decorated in honor of the visit and royal entertainment has been provided. While the business of the order will not be neglected the social features occupy a considerable portion of the programme and the visiting and resident members of the E. P. O. E. are looking forward to a merry week.

THE HEAT IS WANING IN THE EASTERN STATES

Only 103 Degrees in the Shade at St. Louis Today.

FIVE NEW YORKERS SUICIDED OWING TO HEAT YESTERDAY

Twelve Fatalities in St. Louis During the Past Twenty-four Hours — Light Showers in the Southwestern States, But Little Benefit.

ST. LOUIS, July 23.—At 1:30 p. m. the thermometer registered 103 degrees, 3 less than at the same yesterday. Twelve deaths from heat have been reported during the past twenty hours.

NEW YORK, July 23.—Five people committed suicide in New York City yesterday. The extremely hot weather is believed to have caused the increase in the number of suicides recently.

CHICAGO, July 23.—The Chronicle says: The hot weather has greatly increased the consumption of lemons and as a result the commission men are asking an advance of 25 to 50 cents on the stocks they have on hand. It is said that Chicago's supply of lemons was never before so short.

KANSAS CITY, July 23.—Light scattering showers were reported late yesterday and last night in Northwestern Missouri, eastern Kansas, Arkansas and Northern Texas, but at no point, it is believed, was the fall sufficient to cause permanent good. Today in Kansas City the weather bureau reported the temperature at 92 at 11 o'clock. Slightly lower than yesterday.

Rain reported in Kansas City for the last 12 hours takes in seven counties in eastern part of state from Atchison to Oklahoma line. At Parsons the rain was the first of any consequence in seven weeks. At Independence on the Oklahoma line there was a regular down pour. At Muscota the precipitation is estimated at half an inch and the farmers are jubilant.

WASHINGTON, July 23.—Weather bureau officials find nothing in the climatological conditions to justify any prediction of a change of temperature in the heated section of the country. The principal stations in the middle Mississippi valley reported a somewhat lower temperature this morning, but the forecasters say this change is in all probability only temporary.

STRIKE WEAKEN

PITTSBURGH, Pa., July 23.—The strike situation presents no new phases this morning. Leaders of the amalgamated Association are evidently expecting some coup by the combine,

and while the express confidence in their strength of their organization, there is an undercurrent of uneasiness. Heretofore the strike has been plain sailing, but there is an impression that the gauge of battle thrown down at McKeesport and Glassport is about to be taken up in no uncertain fashion.

SHAMOKIN, Pa., July 23.—Notwithstanding the refusal of the Philadelphia and Reading Coal and Iron Company to reinstate striking firemen, all of the strikers at the other mines in this region returned to work today. The Reading Company's fire rovers are manned by non-Union men.

WILKESBARRE, Pa., July 23.—The machinist's strike at the shops of the Lehigh Valley railroad at Caxton and Wilkesbarre is declared off.

STRIKING TEAMSTERS

SAN FRANCISCO, July 23.—The teamsters strike bears a serious aspect this afternoon. Both sides are standing firm and the feeling between the opposing forces is becoming more bitter.

TWO CARS DUMPED

DENVER, July 23.—A Denver and Rio Grande train was wrecked near Marshall Pass. A coach and sleeper rolled down the embankment, injuring a number of persons.

Free Trade Announced.
WASHINGTON, July 23.—Free trade between the United States and Porto Rico, will be proclaimed Thursday.
